Khmaruk Daniil

Frontend-Developer

SUMMARY

Frontend Developer with hands-on experience in building adaptive web applications. Skilled in HTML, CSS, JavaScript, working confidently with modern development tools. Focused on clean code, intuitive UI, and effective teamwork. Looking to apply my expertise in real projects and grow professionally in web development.

PROJECT EXPERIENCE

YogaBloom (Live Demo | GitHub)

· Technologies: JavaScript, HTML, CSS
· Description: Team website with adaptive layout, modern design, and responsive navigation. Implemented sections for team presentation, and contact form.
· Role: Frontend Developer (implemented header and services section)

WebStudio (Live Demo | GitHub)

· Technologies: JavaScript, HTML, CSS
· Description: Adaptive multi-page portfolio website with modal forms, semantic HTML, and accessibility best practices.
· Role: Developer (individual project)

Green Horizon (Live Demo | GitHub)

· Technologies: JavaScript, HTML, CSS
· Description: Landing page for an eco-brand with adaptive design, interactive UI elements, and cross-browser compatibility.
· Role: Developer (individual)
