

Khmaruk Daniil

Full-Stack Developer

SUMMARY

Full-Stack Developer with hands-on experience in building adaptive web applications. Skilled in HTML, CSS, JavaScript, React, Next.js, and Node.js, working confidently with modern development tools. Focused on clean code, intuitive UI, and effective teamwork. Looking to apply my expertise in real projects and grow professionally in web development.

PROJECT EXPERIENCE

YogaBloom ([Live Demo](#) | [GitHub](#))

- Technologies: JavaScript, HTML, CSS
- Description: Team website with adaptive layout, modern design, and responsive navigation. Implemented sections for team presentation, and contact form.
- Role: Frontend Developer (implemented header and services section)

ArtistsHub ([Live Demo](#) | [GitHub](#))

- Technologies: React, JavaScript, HTML, CSS
- Description: A collaborative web application displaying biographies of music bands, along with their albums and songs.
- Role: Team Lead (team)

Leleka ([Live Demo](#) | [GitHub](#))

- Technologies: Next.js, React, Node.js, JavaScript, HTML, CSS
- Description: A collaborative web application featuring an adaptive design and modern architecture. Developed within a team environment, focusing on robust functionality, intuitive UI, and seamless user experience.
- Role: Full-Stack Developer (team)
