

Khmaruk Daniil

Full-Stack Developer

SUMMARY

Full-Stack Developer with 1.5 years of hands-on experience building adaptive, user-centric web solutions with HTML5, CSS3, JavaScript, React, Next.js, and Node.js. Expert in front-end performance optimization, clean code practices, and crafting seamless UI/UX. Successfully managed the full software development life cycle (SDLC) across multiple freelance projects, consistently achieving 100% client satisfaction through proactive communication and timely releases.

PROJECT EXPERIENCE

ArtistsHub ([Live Demo](#) | [GitHub](#))

- Role: Team Lead / Frontend Developer
- Technologies: React, JavaScript, HTML5, CSS3
- Led a development team to build a dynamic web application showcasing music band biographies, albums, and discographies.
- Coordinated project workflows, distributed tasks among team members, and ensured successful delivery within established deadlines.
- Engineered interactive and reusable UI components using React, optimizing the overall user experience.

Leleka ([Live Demo](#) | [GitHub](#))

- Role: Full-Stack Developer
- Technologies: Next.js, React, Node.js, JavaScript, HTML5, CSS3
- Collaborated within a team environment to architect and deploy a modern, full-stack web application with an adaptive design.
- Built robust backend functionality utilizing Node.js, seamlessly integrating it with an intuitive Next.js and React frontend.
- Focused on creating a seamless user experience and maintaining clean, scalable code architecture throughout the development lifecycle.

YogaBloom ([Live Demo](#) | [GitHub](#))

- Role: Frontend Developer
- Technologies: JavaScript, HTML5, CSS3
- Developed responsive and adaptive web layouts for a team website, ensuring smooth navigation across all devices.
- Implemented core UI sections, including the team presentation and an interactive contact form, utilizing modern design principles.

WORK EXPERIENCE

Company under NDA Frontend Developer | 12/2025 – 03/2026
